A few moments went By, and Kate Effishent above the couch of Sybil Conyers. She by with a loose robe folded about her, her dark ourls shading her face; but Kate saw that it was fearfully thin and white. The pale lids were closed and the heavy lashes were glittering with tears. Soltly Kate drew a seat by the side of her stricken friend, and her mother, who sat watching by her side, arose and glided away. More than an hour passed, when the pale lips parted, and she murmured sorrowfully: " Harry, Harry, how dark it is I give var light, Harry ! "

Then followed a brief silence, and again she murmured—" Darling Har ry! have you come," But even as she spoke, each feature became convulsed as with sublen grief. She sighed heavily, and a drop of blood fell dack upon the white pillow and the closed lids slowly opened.

" I am glad that you have come !" she said faintly, as Kate Ellis bent down wiping away those life drops from her

" I had feared we never would meet again, I could not send for you, Kate, before : I have saddened too many hours of your life that had been happy but for me. " Her voice was sadder than even that of the blind girl's, and Kate could only press the thin hands within her own and weep.

" Now that I am dying ! " she continged I may tell you how unhappy I have been. It has been very hard to bear this inward darkness, which came so suddenly upon me. It has been sent Lthink, to punish her who rebelled against the decree of heaven, when the world was hid from her view. I prayed God to give me light. I murmured at the darkness, as one too sorely tried-I have learned that there was much even more difficult to bear, and at this last great grief, since the first bitterness was over I have never murmured. THURSDAY MORNING, MAY 9, 1850.

Dickens .- Have our readers seen any numbers of "Household Words," the new weekly paper of the celebrated "Boz," which is published in this country by G. P. Parsam, 155 Broadway, New York, and lorwarded by him to any subscriber on his receipts of three dullars for the year ! If they have not, we advise such as desire a most instructive and delightful family visitor to try the experiment of taking if only for a few months, the new and charming ournal to which we refer. Its pages, which are of convenient size for preservation and binding, are supplied not only by the original and peculiar pen of the Editor himself, but by the effects of congenial minds, who, without being his imitators, seen; to have spring up in the sub, watered and fertinged by his genius.

In the four numbers, which lie before as we find a variety well-scited to the tastes of all the members of a demostic circle. since the topics range.

the numerous streams heading on the westera side of the chain, has never been auhenticated in a form as to leave the matter free from dealst. A gentleman who has just arrived in this city from the Bast by the way of the Great Silt Lake and Los Angelos, informs us that the question is acrited.

In what quantities the gold exists he is mable to say, as a want of provisions precluded his party from halting long enough to test the richness of the disc wery. The metal was found on the surface of rotten granite, and to a certain depth intermingled with it forming the hel of a stream then dry. Its locality is about two bundred miles from Los Angelos, on the old Spanish trail between that place and Santa Fe, in the neighborhood of the Little Salt lake. A party has lost Los Angelos for the sent, prepared to test the availability of this new placer.

The Pacific News of March 30 says that the travel towards the Southern mines is increasing every day, and the prospects in that region, the coming season, are more fluttering than last year. New placers are discovered and explorations are made, and new towns laid out as the population increases. Stock is said to be growing rapidiy, and business becoming brisk as the mads to the mines become passable MISCELLANEOUS.

The San Prancisco Journal of Commuree notices the arrival there of the schonner California, from an exploring expedition to Trinity Bay. The bay was found in latitude 11 4, and Trinity river emptying into it. The party landed among the Indians, and surveying the country around the month of the river. There was no entrance for any vessel of size; a boas could only enter at high water. The following incident of the voyage is recorded :-

The California was boarded on the 26th of Murch by nice men, who left the brig Cames on the 10th, lifteen miles from land, for the purpose of finding the river, the captain of the brig promising to come the next day and take them off. They were almost in a state of starvation, having just bought a jackass, (with their blankels and everything else they could dispose of) and had but slaughtered him when the California have in sight. Before seeing the schomer they croised the coast for sixty miles, but could not find even a boat harher. The Cameo's boatis now on board.

Henri Herz, the pionist, was it San Prancisco, and advertised one of his concerts at the National Theatre on the 2d of April. Tickets six dollars for the boxes and two delians for the pit.

The William and Elizabeth, Capt. Burwell, which sailed from New Orleans on the 7th of February 1819 had not arrived at San Francisco on the 1st of April 15st. She was a fore-and-aft schooner, five years old of fifty tons burthen, and loaded with an assurted cargo. The vessel and cargo were valued at \$12,000 (on which \$5000 was insured at two offices in New Orleans,) and belonged to Mr. Wm. Green of San Francisco. Mr. Patterson was first mate; Mr. Ross, of N. Orleans, 2d mate, and Henry Kendrick, supercargo.

The San Francisco Journal announces the discovery nearthat place of what, has the appearance of a rich mine of coal which promises an ample supply of that most important material of feel, both for domestic purposes, and those especially of steam unvigation. We notice an advertisement in the Pacific News, for a practical engineer, who has had experience in the mining district of Pennsylvania, which has probably some connexion with this discovery.

Tuesday, May 7. SENATE .-- Various petitions and reports of committees were presented, but few of them however of any gencral importance; and all of them were after some little discussion appropriately referred.

The proceedings of the peace conention of New Hampshire were presented by Mr. Hale, and referred to the committee on foreign affairs.

The bill for regulating the issue of patents and providing for the publication of the notice of applications for enewal was taken up and read.

Mr. Davis, of Mississippi, thought there was law enough upon the subject, and that much trouble and lingation vere produced.

The matter was postponed until to-

The Senate then resumed the consideration of the bill to establish a board of accounts.

House,-The House met at 12 M. and after the reading of the journal, &c., Mr. Buel's resolution relative to the navigation of the River St. Lawrence was taken up and referred to the committee of the whole on the state of the Union.

The House then went into committee of the whole and took up the census bill and are now busy disussing some minor points.

Mr. Vinton's amendment, to continne the act in force until it is altered or repealed, was agreed to.

Chas. Reddinson, Erg., Erston, Md., in a letter to Dr. Jackson, Lawrary 9, 1850, saide—
"My with and mysell have recovered mare kenefit lean your medicine than any other we have evertake for the Daysopia avel Livre disease."

"The Truth Legion," published at Woodsteck Va., Jamany 9, 1850, saide—
"A GREAT MEDICINE."

"We have unformly release floan recommending to the public may 6 five various Patent Medicines of the 3 my unless thoroughly genericed of heir value. A most place we consider worthy of notice is the Greener Buter, invented by Dr. Hondrad, and appeared by Dr. Jackson, in Philadelphia. One instance in porticular, in which the superior virtues of this medicine has been tested, has follow medicary, was very seriously affilied with Live Complaint, and lafter trying in vain various remedice, he purchased about collect of the Bitters, and after using it, was an much redieved of his distressing makely, that he procured mether bottle, and is restored entirely to ideally."

READ FURTHUR A FEW FACTS

From "The Weldon Herold," published at Weldon N. C., January 25, 1850, which said—

"This very sellon that we make any affasion to Patrat Medicines, either approving or otherwise. Observed the research and consciouslines inventors and venders of these medicines, the land is becoming flooded with quark preparations, that are made alone fite profit, and are intentor even for the degs. In this state of things it is head to the dayler and some different medicine the first time to participate, and which are not now orth having. If a person gets an indifferent medicine the first time he participate, and which are now, and inventors must only blance those of their results (Aucha ignorantly cambiag plain as dicines together for the purpose of tasking meansy) for the literatures which attends the efforts of the descripting?

"We believe Dr. C. M. Jarkson's 'Hoafand's Grman Bitters,' to be a mest excellent medicine, as Lose that should be highly popular in these days of Temperamers for they are altogether Vegetable in their composition, without ore drop of Alecha-ic Spirits in thom. This medicine is innorcat, but strengthening in its effects, and righly deserv-ing of an authom-del papallarity, which, when it becomes known, it will, no doubt, fully enjoy," India, M. M. ing of an unbourded popularity, which, when it becomes known, it will, no doubt fully enjoy."

Judic M. M. Nord said, in his "Weekly Messenger," Jacomyr 6, 1850.

"Or. Heighard's German Bitters,—Alt it is a preparation which the leading present the Union uppear to be manifected near recommending, and the reason is obvious. It is made after a prescription fundated by one of the most relefenced physicians of madern times—the lare Dr. Christopher Wilhelm Hundland, professor to the Convertigy of Jensy, private physician to the kies of Pensson, and one of the greatest in dical writers Germany has ever produced. He was emphatically the camp of heading, and therefore a medicine of which he was the income and the forest purple confidently relied on. He specially becommended it in Liver Complaint, Desperal a Debility, Vertigo, Avidity of the Stomach, Constitution, and all complaints arising from a floorier elembration of the stomach, the liver and the investmes. Nine Philadelphia pages express their conviction of its effects from their noon individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present propriets? (Dec. C. W. Jankson's) preparation, but in remainmenting the article to all affiltents."

MORE EVIDENCE.
The "Philadelphia Samelay Gracite," the best family reverquere published in the United States. The cities says of DR, HOOFLAND'S GURMAN BUTTERS:

The ditor size of DR MAN BUTTERS:
